Esse Health's COVID-19 Safety & Wellness Plan

These are challenging times. There is a lot of information out there - some of it is accurate, but there is also a lot of misinformation. At Esse Health, we are working hard to provide you with the most accurate and up-to-date information available. Your Esse Health team is going above and beyond to keep you and our staff healthy and safe. When you visit your Esse Health office, you will find:

- Everyone is screened before entering the office
- Waiting times are limited
- Everyone - staff and patients - wear masks
- Sick patients are separated from patients in the office for regular checkups

We have increased cleaning protocols in our offices and we will continue to monitor and update these measures as new information becomes available to us.

We also urge you to continue to take measures to keep yourself and those around you safe. These measures are known to reduce the spread of the virus.

- Wash your hands often and thoroughly for at least 20 seconds
- Use hand sanitizer when washing your hands is not possible
- Practice social distancing
- Don't touch your face!!! Mouth- Eyes-Nose
- Wear a cloth face mask covering your nose and mouth when out in public

It is safe to visit your Esse Health office. If your Esse Health doctor is recommending an office visit, rest assured we are taking every precaution to keep you safe.
